Socially Spirited Islands Ideal for Families and Friends

The Fouka Bay Concept

Where Socially Spirited Islands Come To Life

Rolling out on 1 million square meters, Fouka Bay brings to fruition an innovative vision of "Contemporary Simplicity" with 12 clusters of "eye shaped" Islands ideal for families and friends. Positioned amongst landscaped gardens, crystal clear lagoons and a mesmerising backdrop of sea views, Fouka Bay is designed to accommodate a variety of housing options that foster community living at its best. All units enjoy the highest degree of luxury; a spaciouly comfortable

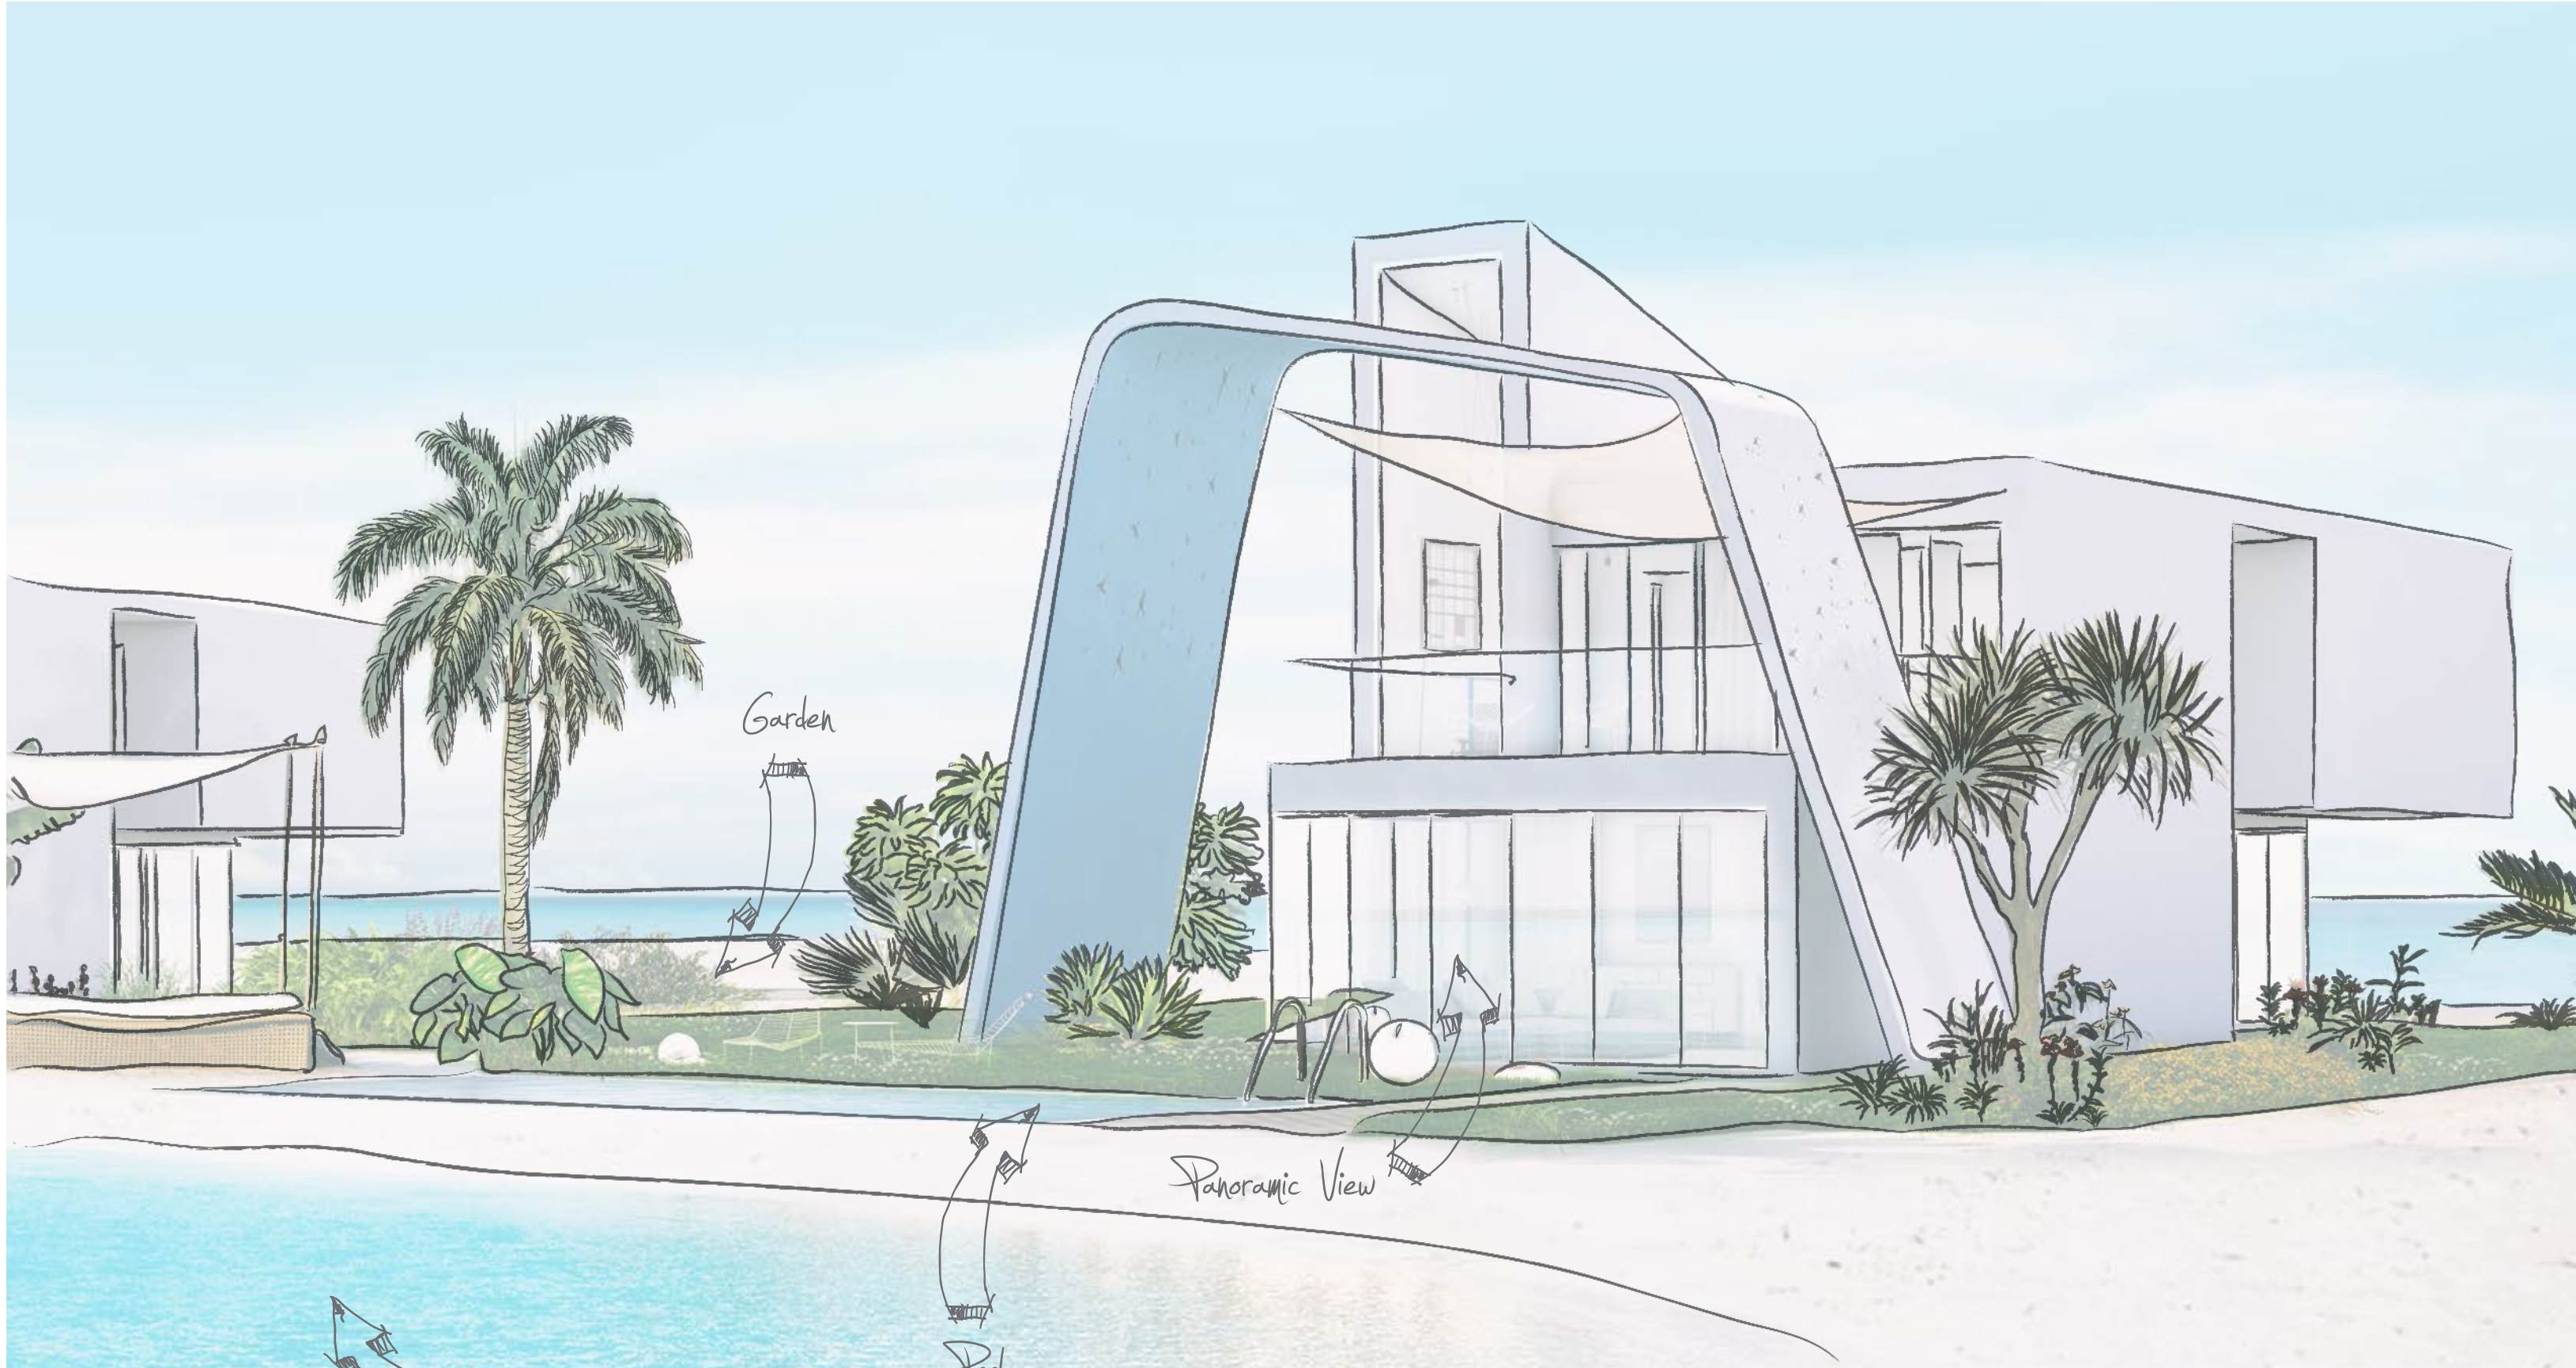

layout; and a design aesthetic that combines functional beach simplicity with true elegance. Fouka Bay is the North Coast's new socially spirited development ideal for families wanting to create memories and friends looking to relax, play or simply get away from it all.

An Eye for Excellence

Established by renowned architect Gianluca Peluffo in 1995, 5+1AA is recognised as one of the world's most innovative architectural firms known for focusing on unique design concepts that are reflective of the culture and heritage of the cities in which projects are developed. Driven by a strategic vision to expand, 5+1AA inaugurated a research and experimentation studio in Milan in 2006, as well as a second branch of the business in Paris. Today, 5+1AA is

universally recognized as one of the foremost architectural firms in Europe boasting numerous awards in architectural excellence for premium projects spanning across all four continents.

A Signature Lifestyle Like No Other

Live closely intertwined with the natural serenity of water flowing all around. Experience a soul-soothing world of contemporary elegance offering a variety of pure shapes, functional sizes and inspiring designs.

Your home at Fouka Bay is not bound by walls, but rather filled with memories of peace and joy.

Drawing on the ancient tradition where water was the sole deliverer of life, the development offers an abundance of waterfront living options; ranging from waterfront villas, double decked twin houses and townhouses, standalone chalets, spacious cabins and bungalows situated right in the heart of tranquil blues. All housing options at Fouka Bay are aesthetically designed to provide you with the epitome of contemporary simplicity complimented by an idyllic lifestyle.

Seamlessly nestled into floating landscapes of private lagoons and sea views, homes not only accommodate for parking spaces, but also boast wide glass facades that take in sufficient amounts of sunlight and lush garden views.

An Exclusive connection with nature

There's nothing more idyllic than relaxing to the waves lapping at the shore. Wake up to infinite blues meeting the clear sky and relax in your private hammock while watching the waves beneath your feet. Fouka Bay's over-water Cabanas and Bungalows are reminiscent of the Caribbean,

bringing the outdoor inside to provide intimate homes that give owners exclusive accessibility and true tranquil connection to nature and sea.

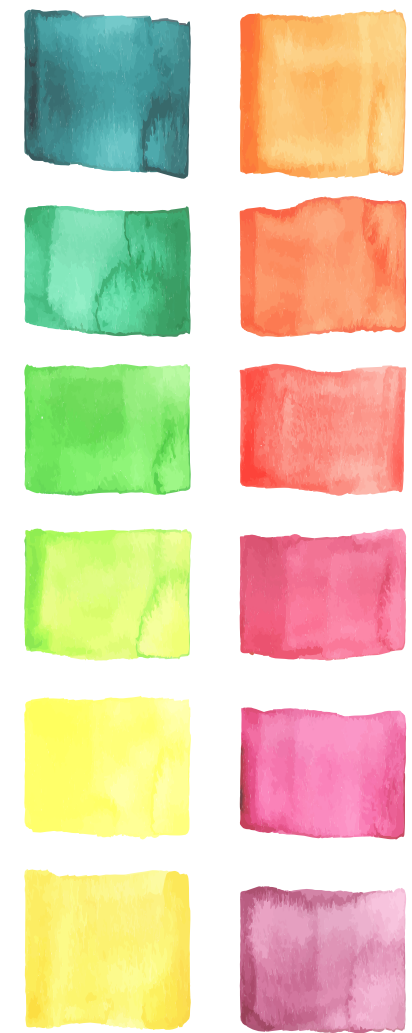

An oasis of calm to call home

Sleek, streamlined, and uncluttered, every home at Fouka Bay is a contemporary breathing space, reflecting simplicity and comfort all around. Acclaimed Egyptian Designer Mona Hussein has found inspiration in the site's serene surroundings rendering joyful seawater and rainbow tints that put the spotlight on chromatic accessories and abstract artwork. Large window facades allow

for sufficient light to compliment the steely grey walls highlighting white leather sections and sandy shades mixed up with relaxing sea tones. With emphasis on spacious arrangements and touchable textures, all housing units maximise the impact of this less-is-more decorating style.
